

Femme géniale

Kimberly Muia, Eng, MBA
Account Manager, Electrical Systems

- Kimberly Muia graduated from Concordia University in 2005 with a Bachelor in Industrial Engineering. While completing her degree, she joined Concordia Institute of Aerospace Design and Innovation (CIADI) where she had 2 internships at Pratt & Whitney Canada (P&WC). Upon graduation, she started working at P&WC on the PW600 production line as a Supply Chain Readiness Leader.
- Following that position, she took on positions of increasing levels of responsibility, namely, Executive Assistant to the VP of Operations, Operations Program Engineering on the PT6 engine program, Supervisor on the shop floor for the Turboshaft, Turboprop and Auxiliary Power Unit (APU) engine programs and mostly recently Account Manager in the Electrical Value Stream.
- During her career at P&WC, she completed a Master in Business Administration (MBA) from McGill University in 2010 on a part-time basis.
- Additionally, for the last 2 years, Kimberly has been the Leader of the Women Leadership Committee (WLC) where their objective is to support Pratt & Whitney Canada's objective of recruiting, developing, advancing and retaining female talent.
